Reversals are not used. Find the midpoint card between each outer pair using the table; if the split falls between two numbers, choose the lower one. Calculate the quintessence cards in your usual manner. Compare the two cards in each set first, then look at the others for additional insights. Numerological, astrological and elemental correspondences can also be considered for further information on “friendliness.” The “Handshake Cards” show the “common ground” (Midpoint) and the “higher calling” (Quint) for each pair.
